

## A message from Principal Dennis J. Lepold

Finish Strong! This message has been delivered to many athletes over the years. Right now, we can watch the college basketball players fighting to the last second to advance in the tournament and extend their college careers. Every one of them tries to "Finish Strong." Too many times people get caught up in who are the starters when really the most important people are usually the ones who finish the game. Remember most games are decided in the fourth quarter. So, my message to our Pirates is make the fourth quarter your best quarter and "Finish Strong." We need to take pride in our work and our efforts. A strong finish will build an excellent foundation for next year for our underclassmen and provide our Seniors with the ability to leave their legacy as a class who gave their best for all four years. So, let's "Finish Strong!"
