

## All School Meeting

“Flexibility” was the focus of this month’s all school meeting. Using the resource, *A Mindset for Learning*, as a guide, the teacher committee provided pre-reading and appropriate lessons and resources for the classroom teachers to complete before the assembly. This assembly was presented by Kindergarten and first grade, and they did a wonderful job teaching the school about flexibility. The students did a wonderful job sharing through posters and interviewing the school nurse and the principal about times they were flexible. Teachers continued the conversations in their lessons, morning meetings and whenever possible. Dutch Neck’s All School Meetings have covered Empathy, Resilience, Persistence, and Optimism. Our final meeting will cover Respect, continuing to teach the traits of joyful, independent growth.
